

## 2019 Upper Republican NRD Soil Moisture Probe Cost Share Program

---

### *Application for Participation*

This cost-share program is intended to encourage the use of soil-moisture probes in the Upper Republican NRD and is aided by grant funds from the State of Nebraska Water Sustainability Fund. Participants will be eligible to be reimbursed for 1/2 of the costs of probe equipment/services, up to \$1,300 per probe. Each participant will be eligible to receive cost share for up to three probes. Reimbursement will only be provided for those probes installed **after** applications are submitted. Applications will be accepted until all available cost-share funds have been obligated on a first-come, first-serve basis. Cost share can be applied to all moisture probe-related services so long as the cost of the actual probe is included. For example, when cost share is applied to the cost of buying or renting the probe, cost share can also be used towards probe installation and subscription fees. Cost share is not available solely for annual subscription, installation and extraction fees. Participants cannot receive cost share from NRCS on the same probes that receive cost share from the URNRD program. Probes must be used in Perkins, Chase or Dundy Counties and participants must allow the URNRD access to data available from use of the probes. Please complete and return this form to: **Upper Republican NRD, P.O. Box 1140, Imperial, NE 69033. Completed forms can also be scanned and e-mailed to [natejenkins@urnrd.org](mailto:natejenkins@urnrd.org) or dropped off at the NRD office at 511 E. Fifth in Imperial.**

1. Name \_\_\_\_\_

Address \_\_\_\_\_ Phone# \_\_\_\_\_ Email \_\_\_\_\_

2. What is the total number of pivots utilized on your farming operation?

3. Have you applied to receive probe cost share from NRCS?

4. Have you ever received probe cost share from the URNRD before?

5. Are you requesting cost share for \_\_\_1\_\_\_2 or \_\_\_3 probes?
